

GEOMETRY SHORT STORY LEVEL 1 GEOMETRY

The following project is a way to boost your grade if you spend a little time to do an excellent job. You are to write a short fictional story that uses mathematical terms.

Guidelines:

1. The story must be fictional and nonmathematical.
2. It must have a minimum of 500 words, including a minimum of 20 different vocabulary words from geometry.
3. Each geometry word must be underlined the first time it is used.
4. The paper must be typed (word-processed).
5. The story must have a title, a beginning, a plot, an ending and display your creativity.
6. The grade which will count as 10% of your quarter grade will be based on creativity, originality, neatness, organization, correct spelling/grammar, etc.
7. The project is due on Friday, October 31st.
8. Have fun!!
